# INVOLVEMENT PROJECTS

# WORKSPACE

As the concept of 'Work from home' took shape and became popular during the Covid-19 pandemic, more and more people moved their jobs to their own homes. Now our house is not only a place to return after stressful working hours, but also a place to witness all daily activities, and a "small office" with standard amenities.

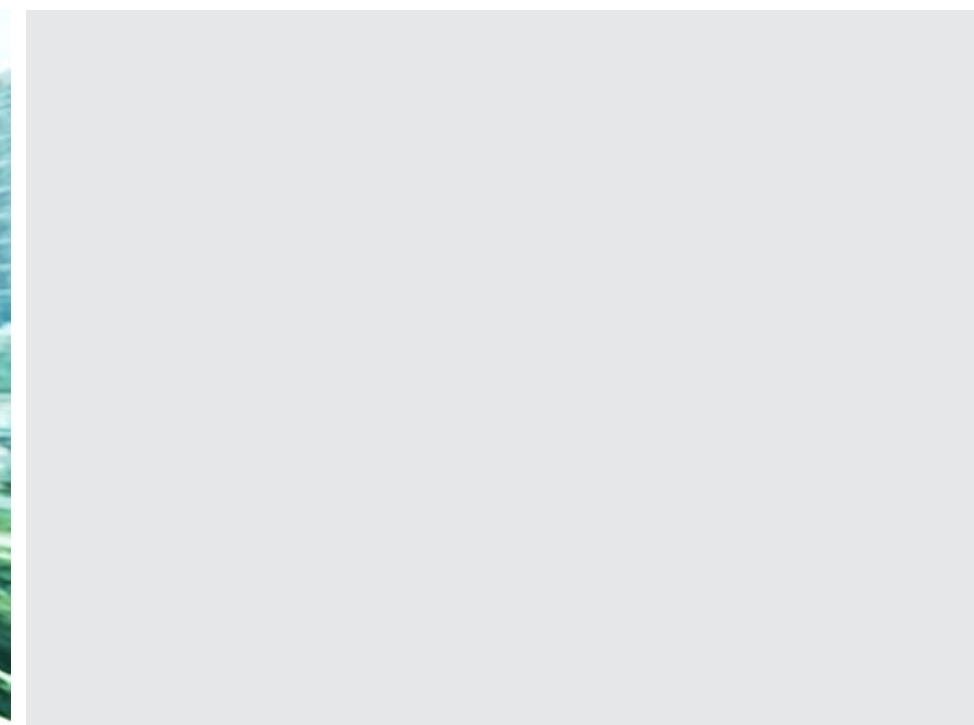

## BEDROOM

Bedroom is where we spend most of our time when returning home. After a tiring day at work, it's great to return to your room, lie back and enjoy a deep sleep. That's why every detail must be carefully selected and arranged to make the homeowner feel comfortable and relaxed every time they look at.

## LIVING ROOM

We define the living room as a place for gathering family, and friends to visit the house. However, after a long busy day at work, the living room is also the first place to welcome you back home. And to ease those fatigue, the room needs to be designed with the style you love

## KITCHEN

For a long time, according to our ancestor, the kitchen plays a decisive role in the prosperity and happiness of the whole family. In feng shui, it is also said that the interior design of the kitchen is a source of wealth, one of the three most important elements of the house, and is likened to the stomach of a body.
